

# Those Left Behind

Week 8 Presentation - The game so far

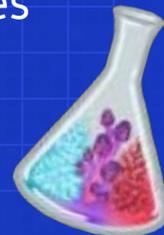

# Will you lead your family to a better future?

A deeply human post-apocalyptic resource management game, "Those Left Behind" explores morality and social responsibility in a world shaped by negligence and climate change.

As the **leader of a survival camp**, you must make tough choices to protect your family and ensure their future.

Joe

Technical Designer

Gabi

Character Artist

Anna

World Designer & UI  
Artist

Rosie

Environment Artist

Yiran

Narrative & Sound  
Designer

# Joe

## My role and contributions

- Implemented character click-and-drop mechanics
- Created daily progression with the End Day button and weekly cycles
- Added a character camp preference system that affects resource generation
- Implemented food consumption mechanics with failure conditions
- Built scene transitions between gameplay and narrative sections
- Created automatic character assignment within camps
- Implemented failure/restart systems when requirements aren't met
- Fixed several bugs identified during playtesting

## My inspirations for this project

### Main source of inspiration:

- The main coding inspiration / help
  - [Intro ~ Making a Resource Gathering Game in Unity ~ GameDev Tutorial ~ Part 1](#)
  - [Make a Visual Novel in Unity 2023 - Episode 00 - Introduction](#)
  - [C# Idle Tycoon - Build an Idle Tycoon Business Simulation in C# & Unity](#)
- Game inspirations for features to add whilst coding
  - 60 Seconds! (A game similar in the core gameplay)
  - This War Of Mine (Literally the exact concept but different genre)
  - Darkest Dungeon (Features a character placement and management feature)

## What went well:

- So far the communication has been excellent between the team
- Everything has worked smoothly
- The playtest has given very useful feedback on what needs to be improved

## Current challenges and help you may need:

- We need more feedback on the resource generation and usage rates
- Is there any feedback regarding the character specialisation / preferences?

# Anna

## My role and contributions

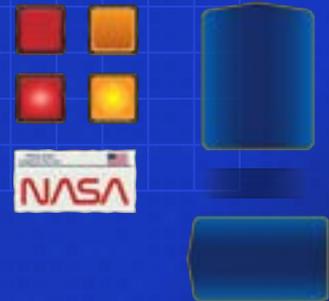

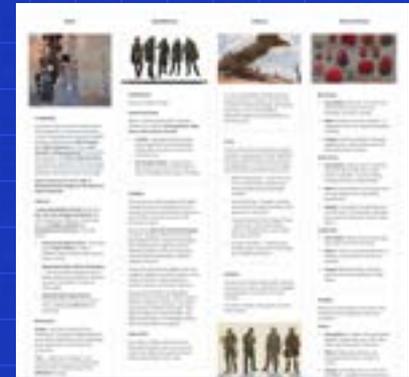

- ★ Created a **world bible** for our Narrative writer
- ★ Created **character profiles** for our character artist
- ★ I'm **leading project management**
- ★ Recently picked up the role of **UI Artist**

## My inspirations for this project

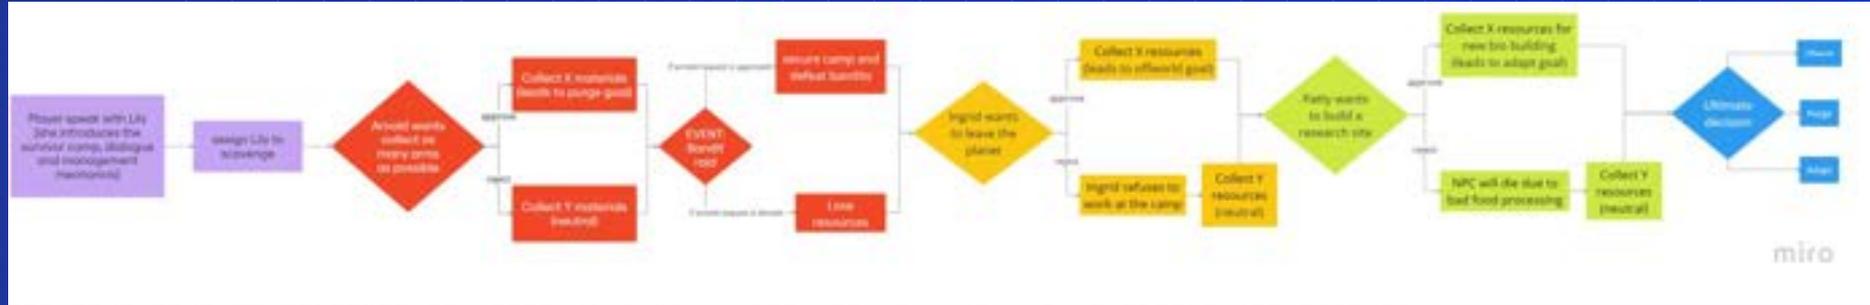

- ★ Management sims with a Narrative  
Surviving the Aftermath, Yes, Your Grace  
& Fallout games

## What's went well

- ★ Team communication & collaboration has been super effective! Our design discussions are always engaging and fun.

# Gabrielle

## What I've done so far:

- ★ Created character assets
- ★ Surveys and discussions with the team for feedback on the designs

## What's inspired me:

- ★ TWD comics, characters from existing media set in dystopian worlds, & visual novels

## What went well:

- ★ Verbal discussions and overall feedback have been effective in making consistent yet distinct characters.

# The Perriwinkle Family

# Rosie

## What I've done so far:

- ★ Created **resource icons** for the UI.
- ★ Created the **survivor camp background art**.
- ★ Conducted a **user feedback survey** on my background art.
- ★ Begun creating the **resource camps**.

## My Main sources of inspiration:

- ★ Films including Wall-E and Mad Max, and games like Fallout and Surviving the aftermath.

## What's gone well:

- ★ I've gained some really useful feedback on my artwork which will help me make the game art more comprehensible to first time players.

Survivor camp background art

# Yiran

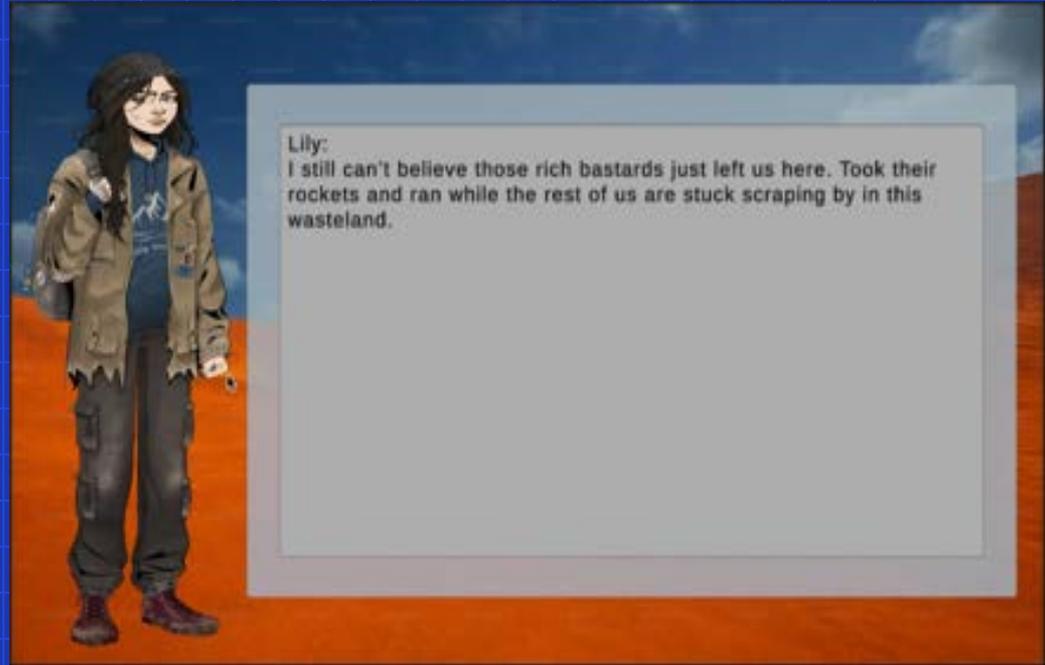

## My role and contributions

- ★ Written the drafts of dialogue scenes
- ★ Created background music for the survivor camp
- ★ Created UI sound effects

## What's next?

Reiterate on dialogue scenes and continue work on sound/music

Thanks for listening!  
Any questions?

A picture is worth a thousand words
